The Improved Murphy EASY ROLLER BED

Lightweight . . . easy to roll and handle. Absent are the heavy counterweights formerly found on roller beds. The patented base, tested in seven years of successful service, automatically spreads to 43 inches as the bed is lowered. It locks automatically, provides broad distribution of weight, locks head and foot ends securely in place. 4-inch composition casters with ball bearings on both shaft and axle.

Bed measures only 23 inches wide when upright.

A Murphy Easy Roller Bed cannot close up when occupied. It is easy to lower, easy to raise. Perfectly balanced at any point in raising or lowering.

CLOSETS FOR MURPHY ROLLER BEDS

Minimum Door Height: 6' 8"

Bed	A	B
4' 6"	26"	5' 0"
4' 0"	26"	4' 6"

	3' 0" Door			2' 10" Door			2' 8" Door		
Bed	A	B	C	A	B	C	A	B	C
4' 6"	36"	32"	61"	34"	34"	61"	32"	36"	61"
4' 0"	36"	30"	55"	34"	32"	55"	32"	34"	55"
3' 3"	36"	28"	47"	34"	29"	47"	32"	31"	47"

Simple ~ Sturdy MURPHY RECESS BEDS

The most simple and compact type of concealed bed. This bed is fastened to the floor in a recess as shallow as 20 inches and concealed by French or panel doors.

It lowers directly to the floor; does not pivot. When lowered to the floor, the head end of the bed is almost in line with the front of the recess. The head of the occupant is out of the recess.

Because of its simplicity of installation, the Murphy Recess Bed is used for remodeling work as well as for inclusion in new construction. Either coil springs or ribbon fabric springs are furnished. Any of the first four ends (shown below) may be had. Any type of mattress may be used.

Bed	A	B
4' 6"	5' 0"	1' 8"
4' 0"	4' 6"	1' 8"
3' 3"	3' 9"	1' 8"

Minimum Door Height: 6' 8"

all Types of Murphy Beds have choice of Ends

Moderne—End Style No. 29 Blended Walnut

5-Filler—End Style No. 21 in Walnut Brown

Full Panel—End Style No. 212 Walnut Burl

Jenny Lind—End Style No. 26 Early American Maple

Framed Panel—End Style No. 35 Walnut (For B Pivot Beds Only)

New Models of Famous MURPHY PIVOT BEDS

Open the concealing door . . . a standard 36-inch door that gives no hint of its purpose . . . your Murphy Pivot Bed is ready to swing from its closet into the room as easily as the door opened. The bed is lowered "at the touch of a hand," even by a child. At all stages in lowering, the bed is in perfect balance. Let go of the bed at any point; it will not drop or move upward.

Typical Installation Murphy Twin Pivot Beds with Full Panel (Style No. 212) Ends. French or panel doors are used.

You may have coil or ribbon fabric springs on Murphy Beds . . . and the finest of inner spring mattresses. Beds may be had in 3 sizes and in several attractive styles.

No special construction is needed for installation of a Murphy Bed. No part is attached to the door. Any good floor will carry its weight. Entry to the bed closet is possible whether the bed is up or down.

Bed	A	B	C	D
4' 6"	2' 3"	3' 2"	3' 0"	3' 2"
4' 0"	2' 0"	3' 0"	2' 10"	3' 0"
3' 3"	1' 8"	2' 9"	2' 8"	2' 10"

Minimum Door Height: 6' 8"

Dimension D same as A when door hinged on opposite jamb.

MURPHY BEDS Make Extra Rooms - in homes like these!

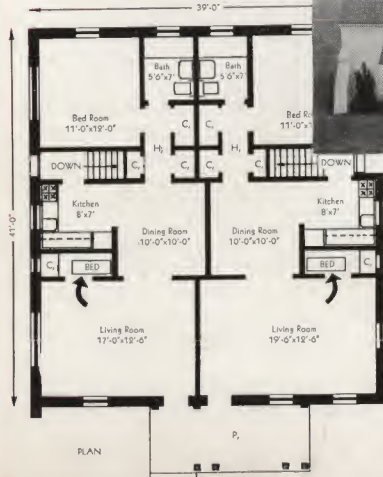

6-Room Efficiency at 5-Room Cost!

In this charming home, the efficiency of six rooms is obtained at the construction cost of five. A Murphy Roller Bed fits into a small closet when not in use. Kitchen is made beautiful and convenient with Murphy Cabranettes.

5-Room Convenience in a Duplex 4-Room

A profitable duplex with the beauty of a smart one-family residence. Each living room is completely usable by day. A Murphy Pivot Bed swings from its closet for slumber by night. Murphy Cabranettes provide unusual kitchen convenience.

How MURPHY IN-A-DOR BEDS are used today-

The small cost of a Murphy Bed eliminates a room. Each room costs at least a thousand dollars to build and probably two hundred dollars each year in heating, lighting, decorating, furnishing, and investment cost. If you prefer, a Murphy will give you an extra room without the extra cost or added work. Homebuilding, today, demands roominess without wasted space, and comforts, without needless work for the housewife. Because it contributes so much to both economy and convenience, the Murphy In-A-Dor Bed should be part of the plan of every modern home.

★ Modern Apartment

In small or large apartment, the magic of the MURPHY, provides an extra room without the extra cost.

In rooms that are sensibly devoted to other purposes, the MURPHY provides comfortable slumber at night. These modern beds make kitchenette apartments very roomy homes.

★ Maids Room

In such a room, no matter how small, the maid may receive guests and enjoy her room, not merely as sleeping quarters, but as a living room. The increasing difficulty of obtaining and keeping good servants makes this point worthy of consideration.

★ For Sun Parlors

Airy and breeze swept—why give them up at night? A MURPHY IN - A - DOR makes the sun parlor a healthy, delightful sleeping room.

Many invalids have enjoyed convalescence from a bed comfortably located in a cheery sun parlor where they could see activity in the street.

★ Double Duty Rooms

A MURPHY, concealed by day, will transform a library, billiard room, den or sewing room, into a sleep-inviting bed chamber for regular use or emergency. Your hidden spare room is not wasted when you have no guests.

★ In the Nursery

The room the children use for play becomes their bed room by night. The MURPHY makes the luxury of a playroom possible without waste of space. The MURPHY is protected from dirt and disorder when not in use.

★ On the Sleeping Porch

The health-building sleeping porch, at home or at the summer cottage, is open to dust as well as air. MURPHY beds, after airing, are protected from dust and disorder. By day your sleeping porch may be used as a playroom or for other purposes.
